

Direct Nasal Mask

INFINITY™ 481 Direct Nasal Mask

Provided for your reference by
cpapXchange.com

The *Infinity™ 481* Direct Nasal Mask is smaller and lighter than all other masks to offer the patient total sleeping freedom.

The *Infinity™ 481* differs from other over-the-nose nasal masks by delivering pressure directly into the nasal passages via an anatomically shaped Silicone Seal direct to each nostril. A maintenance free vent disperses the air quietly and efficiently, while a ball and socket styled joint allows infinite movement for comfort.

This freedom of movement, combined with minimalist *Microgear™* Headgear provides for unprecedented comfort and ease of use. A conventional headgear option is also included for additional stability.
