* The existence of HCPCS codes does not guarantee coverage or payment for any device by any insurance carrier or Medicare. The physician is responsible for establishing medical necessity for the device based upon the policy requirements of the specific carrier.

** Actual Medicare allowables vary by region of the country. Many providers use Medicare allowables as a benchmark for their charge structure based on their mix of payers. Coverage and payment policies are available for Medicare only. The insurer should be contacted directly for indemnity and managed care. These codes may be reimbursed higher than Medicare allowables.

[patient annual reimbursement schedule for breeze® sleepgear®]
