

## Relax

**ComfortFusion** provides value and a fit that are easy to get comfortable with.

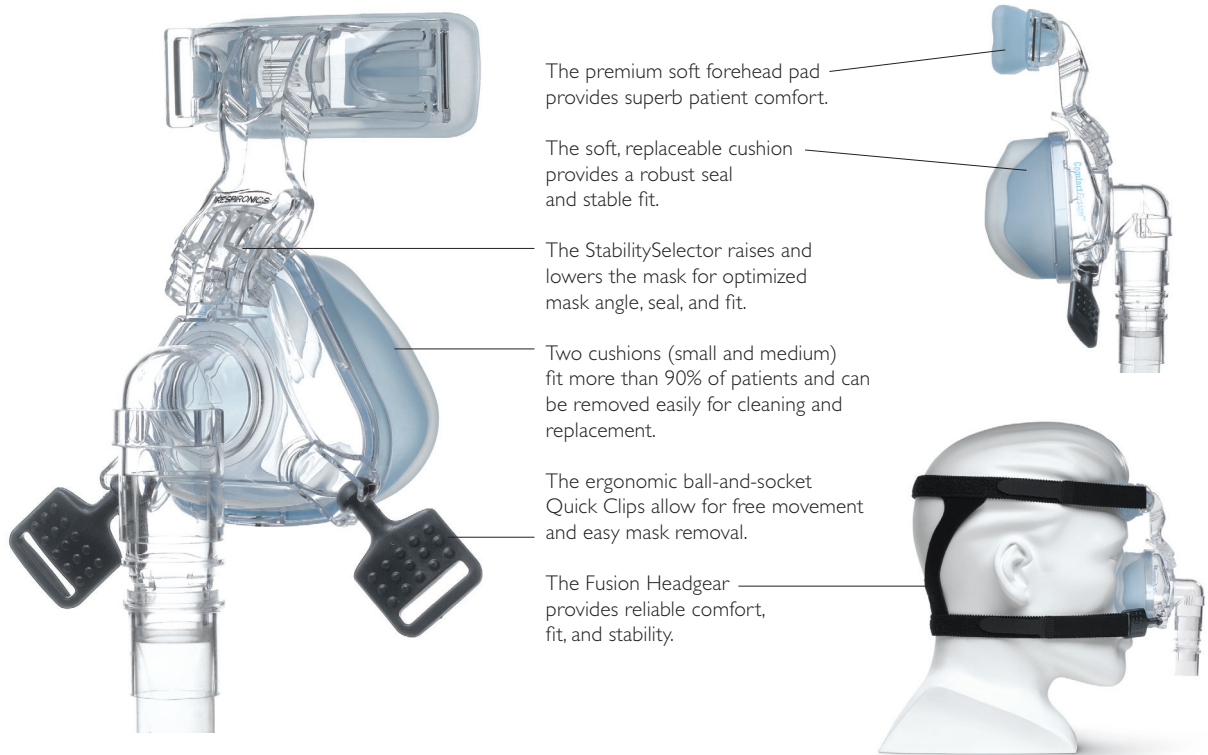

Our ComfortFusion mask has everything your patients want – a reliable seal, comfortable headgear, an easy fit, and a replaceable cushion. For you, our FitPack comes with both a small and a medium cushion, so you can fit more than 90%\* of your patients.

We know what it takes for patients to live with therapy. We also understand the business challenges you face. That's why we developed the ComfortFusion mask.

Designed around the patient to encourage long-term compliance, ComfortFusion also makes fitting and stocking simpler for you. Patients will love the superior seal of the soft, replaceable cushion and our proven StabilitySelector, enhanced by a premium soft forehead pad and our Fusion Headgear. You'll enjoy the convenience of two cushion sizes in our FitPack that will fit nearly all of your patients. The DuoPack kit includes a mask, plus an additional cushion of the same size – helping to further reduce your inventory and optimize your mask replacement program.

ComfortFusion – the perfect blend of comfort and value.
