FlexiFit™ 431 Full Face Mask

Provided for your reference by
cpapXchange.com

The *FlexiFit™* 431 Full Face Mask with Under Chin Design builds on the foundation of the unique features common to the *FlexiFit™* Series of nasal masks.

The *FlexiFit™* Technology has been incorporated into the contoured Silicone Seal to allow a large range of nasal bridge movement and simple one step auto adjustment fitting. The unique *Glider™* Strap provides freedom of movement while maintaining a seal. The crown strap and Under Chin Design provide extra stability and maintain a fit even with jaw movement. The Easy-Release Strap allows simple removal of the mask and the “Fit and Forget” Headgear ensures no on-going adjustments are required.

The *FlexiFit™*431 Full Face is supplied fully assembled, with a second size of Silicone Seal in the box.
