The MOJO™ Full Face Mask

Ensuring the Success of Your Therapy and a Comfortable Night's Sleep

The MOJO™ full face mask is one of the world's finest sleep apnea masks. Created specifically to overcome the discomfort usually experienced with lesser quality traditional masks, the hand-crafted and engineered MOJO™ full face mask has been created to ensure a very comfortable night's sleep - helping you ensure the continuity of your therapy. The Mojo offers patented, practical features unique to the SleepNet line of apnea masks. The flexible shell is easily shaped and re-shaped and the inventive thumb wheel allows precise leak control at the bridge of the nose. Each hand-crafted mask is designed for an easy customized fit, individually tailored to the contours of your own face for complete comfort.

- **Perfect comfort fit for your face from exclusive SoftGel® technology**
- **The professional's choice premium quality mask**
- **Fine, breathable headgear fabric**

- FDA Approved
- Professional's choice
- Easy customized fit
- Finest manufacturing - made in the USA
- Latex Free

"If you are still fighting with your mask to find the right fit... stop now. Unless you have the MOJO, or any other Sleepnet mask, you are not going to find it, trust me. The MOJO was my third mask over the course of a year and I am happy to say that I am finally sleeping through the night. I wake up refreshed and ready to go since the MOJO came into my life!!"

- John Graham from Newfields, NH

"After struggling with a variety of masks supplied by home care companies, my brother recommended a mask he uses, the "MOJO" by Sleepnet. It works so well, there's no need to worry about sleepless, painful nights ever again. Thanks Sleepnet!!"

- Jack Robinson (and brother) from Greensboro, NC

Sleepnet makes the world's finest sleep masks and is dedicated to making only the highest quality masks. Design and production is based in the USA in Hampton, New Hampshire.
