

# Oral Mask

## ORACLE™ 452 Oral Mask

Provided for your reference by  
**cpapXchange.com**

The Fisher & Paykel Healthcare Oracle™ was the first ever developed oral mask, a milestone in interface design.

The **Oracle™ 452** delivers pressure through the mouth rather than the nose offering the patient yet another choice of delivery. Clinically proven to function as effectively as a nasal mask, the **Oracle™ 452** is a perfect solution for mouth breathers and patients with chronic nasal obstruction who find therapy difficult with a nasal mask.

The new generation **Oracle™ 452** has exciting refinements that improve the patient experience, for ease of use and ease of seal. A new symmetrical design means the mask is always correctly fitted while the infinitely adjustable rotating dial allows for a personalized fit to provide greater comfort and simplicity.

The **Oracle™ 452** Interface is a new, unique oral mask for the delivery of CPAP or bi-level therapy.
