At Last – Say Goodbye to Uncomfortable Nose Irritation

The Phantom® Mask is one of the world's finest nasal sleep apnea masks. Created specifically to overcome the discomfort you usually experience with lesser quality traditional masks. The finest quality Phantom® Nasal Mask has been designed to ensure a very comfortable night's sleep - helping you ensure the continuity of your therapy. Enjoy a clear field of vision with the tube assembly attached on one side of the mask. Say goodbye to uncomfortable bridge irritation because of the intelligent large gel cushion which disperses pressure over the cheek area for a balanced and ultra comfortable feel.

Each hand finished mask is designed for an easy customized fit, individually tailored to the contours of your own face and nose for complete comfort in just a few seconds.

- **Perfect comfort fit for your face from exclusive SoftGel® technology**
- **The professional's choice premium quality mask**
- **Fine, breathable headgear fabric**

"I have used a CPAP machine for more than 7 years. In that time I have tried almost every mask out there. I keep coming back to the Phantom. It is simply the most comfortable, best fitting, nasal mask available."

- Ben Kraft from Kensington, MD
