

Technology Highlight: **Headgear**

"Great headgear
—fit, feel and design."

"I'd buy this [mask] for
the headgear alone."

Reference: ResMed user trials

ResMed has developed a unique textile composition specially for the Mirage™ FX headgear.

The materials used are both flexible and breathable, improving comfort and support for users.

New, form-fitting headgear

springs to life, ready to fit and wear.

SoftEdge™ headgear design

is kind to the face; made from soft material with a rounded cross-section, reducing marks and discomfort.

Seamless comfort

ResMed has specifically developed the seamless edge of the headgear to reduce the amount of touch points on the face, in turn reducing the chances of marking on the skin.

Effortless and
effective

Mirage™ FX
NASAL MASK
