

Swift™ FX Bella

Style and design with her in mind

The Swift FX Bella nasal pillows system features the exclusive Bella loops accessory in place of the headgear, offering an additional user-friendly way to manage a wide range of hairstyles. It maintains the same comfort features of the original Swift FX for Her to offer the quietest and most comfortable therapy experience.

Dual-wall nasal pillows seal on contact for a gentle, comfortable seal, offer a wide fit range and disperse air gently to the nose

Soft, narrow cushion with integrated flexible chamber makes side sleeping comfortable and helps maintain seal during movement

Ultra-smooth 360° rotating elbow rotates with easy, fluid movement for flexibility in tube positions

Quiet vents diffuse and direct airflow quietly away from the user and bed partner

Spring-flex lightweight tube stretches and bends uniquely for increased stability

Bella loops fit comfortably around the ears and stay out of her hair for a more streamlined look and feel

Size and name indicators make it easy to identify the size as well as the correct orientation of the mask

“Lock and key” for easy attachment and detachment of headgear straps or bella loops

Flexible pillows with trampoline action accommodate movement in multiple directions while maintaining seal. Pillow sizes for her (XS, S and M) come packaged with mask to fit most female patients
